## "Predatory Practices"

DVD

"According to the FBI, White-collar crime, and particularly mortgage fraud, is the fastest rising crime in the United States." What is real estate fraud? Who are the victims? Where does it happen? What can we do to protect our clients and ourselves?

"Predatory Practices" takes a hard look into a crime that is rocking the real estate industry and leaving a wake of destruction in its path. Whether it's an elderly Hispanic woman, an elite gated-neighborhood or your local lender that is victimized, learn how the entire community suffers when fraud occurs.

This film is a cautionary tale, giving both the industry professional and the consumer tools to detect and protect against both the predatory lapse of professional standards and outright criminal intent to defraud.
